PAREKH
GROUP

- Six decades of experience
- Global Approach
- Infrastructure Expansion
- Comprehensive Solutions
- National Network

Six decades back we began as a trading based organisation and have today diversified into shipping, logistics and hospitality.

It is our familial traits that make us one strong team. As individual units, our companies offer specialised and in-depth expertise in the domain they function. Each, a major player in their chosen specialisation but together, they are like the flock of birds.

One team.

Parekh Group is a family-owned company run by this value system of oneness. We always aim to exceed expectations and this brings about lasting relationships. Every employee, client, vendor, business associate is equally important in this family tree.

We have an extremely proactive and enterprising top management. Personalised consumer service and customised solutions have played a significant role in our success story.

For more information visit www.parekhgroup.in

Have you ever noticed the head of a stream?

It's that point of origin from where the stream begins to gush out and birds flutter off on a journey. These birds, though belonging to different species, exhibit unmatched coordination. They become a single unit, changing directions and reaching destinations with precision, exemplifying oneness.

Parekh Group is figurative of this culture and we are having established six decades back. Activity of our Group involves in liner agency, bulk agency, liquid agency, offshore, stevedoring, NVOCC, freight forwarding, heavy lift crane division, chartering & ship broking, vessel owning, Container Freight Station & Warehousing, hospitality industry.

Group offices and facilities are spread 22 locations across India and 2 international locations at Dubai and Singapore. "Kutch" has always been growth oriented region for the group. Having strong Container, Bulk and Liquid agency activities at Kandla and Mundra port, Group has expanded into infrastructure facilities in the Kutch region over last decade. We are one of the leading Container Freight Station at Mundra port with over 150,000 Teu handling capacity alongwith dedicated facility for storing Bonded cargo. Group's stevedoring division caters to commodity traders, steel companies and other bulk commodities exporters. Group also undertakes Marine Services contracts at Kandla, Tuna port in their Tug/Vessel owning division.

We always aim to exceed the expectation and this brings lasting relationship. Every employee, cleint, vendor, business associate is equally important for us.

Parekh Group has developed a new facility of Liquid Terminal dedicated for edible oil storage in the Port of Kandla, India, under the new name of Seabridge Terminals.

The terminal is one of India's state-of-art, well designed independent storage facility for vegetable oils with a total capacity of approx 65115 KL to cater the needs of customers.

Our terminal is Located on the west coast of India, the Port of Kandla is one of the busiest ports of the country and the largest for chemicals and vegetable oil imports. The port has good logistic connections with the hinterland of northern India and the Greater Gujarat area where most of India's such industries are located.

Seabridge Terminal Kandla, consists of 31 Fixed cone roof tanks with connections to 5 shared jetties owned and operated by the Port of Kandla. The terminal will continue to serve our existing international and domestic customers. India is seeing rapid growth in the production and consumption of vegetable oils. The acquired storage terminal in the Port of Kandla is very well positioned to support the logistic product flows resulting from this growth.

We believe in maintaining customer relationships and partnering with our principals. After establishing a strong reputation among our customers through our PAN India CFS Facilities or Other Shipping business ventures, this acquisition is another important step for Parekh Group in gaining an immediate presence in the fast growing Indian market. Our proven solutions and models fulfil critical storage needs and requirements for our customers.

We are here to build a great company. A company that has achieved the highest levels of customer satisfaction. A great place to work, a provider of exceptionally high quality service, a Company that carries itself in the market place with the highest levels of business integrity and business ethics, a company composed of dedicated, accomplished professionals, committed to customer. We are here to build a company in which we can all take great pride.
